Curriculum Vitae: Lin He

School of Astronomy and Space Science, Nanjing University, Nanjing, China
helin@smail.nju.edu.cn
https://orcid.org/0000-0002-7875-9733

EDUCATION

Ph.D. in Astrophysics, Nanjing University, Nanjing, China — *Sep 2021–Exp. Jun 2026*
Advisor: Prof. Zhiyuan Li

B.S. in Astronomy, Nanjing University, Nanjing, China — *Sep 2017–Jun 2021*
Nanjing University, Nanjing, China

RESEARCH INTERESTS

Active Galactic Nuclei; Circumgalactic medium; Galactic feedback; Galaxy interactions.

AWARDS & HONORS

Nanjing University Scholarship for Talents (First-class) — *2025*
Tiangong International Overseas Exchange Scholarship — *2025*
People's Scholarship — *2020*

TELESCOPE PROPOSALS

Principal Investigator (PI)

- 2025, **VLA**/25B-139, 4.7 hours.
- 2025, **EP-FXT**/Cycle2-0063, 75 ks.
- 2024, **Co-PI, NuSTAR**/Cycle10-10206, 180 ks for 7 dual AGNs.
- 2023, **Co-PI, CAHA**/24A-3.5-008, 0.2 nights.

Co-Investigator (Co-I)

- 2025, **BTA**/BTA261.1163E, 2 nights.
- 2025, **FAST**/SQB-2025-0256, 7.5 hours.
- 2024, **VLA**/24B-049, 3 hours.
- 2024, **P200**/CTAP2024-A0040, 1 night.
- 2023, **VLA**/23A-197, 2.9 hours.
- 2022, **VLA**/22A-263, 2.6 hours.
- 2022, **NOEMA**/W22CQ, 4 + 8 hours.

TECHNICAL SKILLS

- **Software:** CIAO, XSPEC, SAS, eSASS, SPEX, CASA
- **Programming:** Python, Bash, Git, LaTeX,
- **Data Processing:** X-ray (Chandra, XMM-Newton, eROSITA, NuSTAR); Radio (VLA)

TEACHING & MENTORING EXPERIENCE

Teaching Assistant — *Feb – Jul 2023, 2024*
Course: **"An Introduction to X-ray Astronomy"**

Undergraduate Thesis Advising — *2023 – 2024*
Taile Sun (NJU): "An X-ray Study of SDSS/MaNGA and SAMI Galaxies."

ACADEMIC VISIT

SRON Space Research Organization Netherlands — Leiden, the Netherlands
Host: Dr. Liyi Gu — *July – Oct 2025*

Shanghai Astronomical Observatory — Shanghai, China
Host: Dr. Tao An — *Sep 2024*

PROFESSIONAL SERVICE

Lecturer: eROSITA Scientific Exploitation Workshop *Oct 2023*
Give lectures on eROSITA Data Reduction and Analysis to ~ 30 *students and faculties*

Seminar Organizer: Organizer of X-read Seminar, Nanjing University *2022-2024*
A weekly journal club for discussing fresh researches in X-ray astronomy

SELECTED ORAL TALKS

- **The 3rd HUBS Workshop**, Beijing, China. *Jun 2025*
  "Discovery of Giant Bubbles in the Hot Gaseous Halo of NGC 6286"
- **27th LAMOST Galaxy and Cosmology Frontier Symposium**, Changsha, China. *May 2025*
  "Discovery of Giant Bubbles in the Hot Gaseous Halo of the Massive Disk Galaxy NGC 6286"
- **Galaxy and Cosmology Frontier Symposium**, Liyang, China. *Jul 2024*
  "A Bubble Evolving in the Halo of NGC 6286"
- **Galaxy Evolution and Large Field Surveys Conference**, Ningbo, China. *May 2024*
  "A Chandra X-ray Survey of Optically Selected Close Galaxy Pairs"
- **26th LAMOST Galaxy and Cosmology Frontier Symposium**, Suzhou, China. *May 2024*
  "Probing the Hot Gas Halo of Low-mass Disk Galaxy NGC 7793 with eROSITA and Chandra"
- **Hot Gas in the Universe: HUBS Workshop**, Haikou, China. *Dec 2023*
  "Probing the Hot Gas Halo of Low-mass Disk Galaxy NGC 7793 with eROSITA and Chandra"
- **eROSITA Scientific Exploitation Workshop**, Suzhou, China, *Oct 2023*
  "Probing the Hot Gas Halo of Low-mass Disk Galaxy NGC 7793 with eROSITA"
- **Star Formation and Nuclear Activity in Galaxies**, Nanjing, China, *Mar 2023*
  "A Chandra X-ray Survey of Optically Selected Close Galaxy Pairs"

PUBLICATION LIST

Summary: 6 total, 4 first author, 1 second author; 20 citations

ADS library: https://ui.adsabs.harvard.edu/user/libraries/gHbK2U2tRnqcT5NDcT-vCQ

1. He, L., & Li, Z., 2025, *submitted*.
Deficiency of Hot Baryons in the Halo of Local L^* Galaxies Revealed by SRG/eROSITA.

2. He, L., Li, Z., Li, Z., García-Benito, R., Liu, Y., & Hou, M., 2025, ApJ, 992, 86.
Discovery of Giant Bubbles in the Hot Gaseous Halo of the Massive Disk Galaxy NGC 6286.

3. He, L., Li, Z., Hou, M., Du, M., Fang, T., & Cui, W., 2025, ApJ, 983, 149.
Probing the Hot Gaseous Halo of the Low-mass Disk Galaxy NGC 7793 with eROSITA and Chandra.

4. He, L., Hou, M., Li, Z., Feng, S., & Liu, X., 2023, ApJ, 949, 49.
A Chandra X-ray Survey of Optically Selected Close Galaxy Pairs: Unexpectedly Low Occupation of Active Galactic Nuclei.

5. Hou, M., **He, L.**, Hu, Z., Li, Z., Jones, C., Forman, W. R., Su, Y., Wang, J., & Ho, L. C., 2024, ApJ, 961, 249.
X-ray Constraints on the Hot Gaseous Corona of Edge-on Late-type Galaxies in Virgo.

6. Li, D., Fang, T., Ge, C., Liu, T., **He, L.**, Li, Z., Nicastro, F., et al., 2024, ApJL, 977, L40.
Robust Detection of Hot Intragroup Medium in Optically Selected, Poor Galaxy Groups by eROSITA.
